NISHANT MAURYA

ABOUT ME = { PYTHON • DJANGO • FLUTTER • AI}

Fourth-year Computer Engineering student building AI-powered products using Django, PostgreSQL, Celery, Redis, and LLMs. Experienced in developing production systems across education, mentoring, and conversational AI, with 8+ hackathon wins. Passionate about shipping scalable products that solve real user problems.

EDUCATION

- B.E Computers - Fr. Conceciao Rodrigues College of Engineering,Bandra(W)- **9.1 CGPA**
- MHT CET -Maharashtra - PCM - **97.57%ile**
- H.S.C - Queen Mary's Junior college, Mira Road(E) - PCM - **89.33%**
- S.S.C - Holy Cross Convent School, Mira Road(E) - **83.80%**

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, Dart, C,
- **Backend Technologies:** Django, Django REST Framework,Celery,
- **Frontend Technologies:** Flutter
- **Databases:** PostgreSQL, Firebase, Redis
- **Libraries & Tools:** Docker, OpenCV, Git, Github, Advanced MS Excel
- **Deployment:** AWS, Railway, Render, Dokploy
- **Ai & Developer tools:** OpenClaw, Ollama, Google Stitch, LangChain, LangGraph

PROJECTS | *PORTFOLIO↗*

1. **Agnel Trade Test & Training Portal | Django, PostgreSQL, Celery, Redis, Cloudflare R2**
   - Developed a candidate assessment portal live at atttc.cloud under my company 4iStudios as a student-led college consultancy project for the Agnel Trade Test Center.
   - Built a secure role-based workflow (Office, Assessor, Validator) with AES-256 encryption, dynamic PDF certificate generation, and automated Cloudflare R2 backups via Celery.
   - Secured candidate portals using rate limiting, custom 429 handlers, and CAPTCHA.
2. **Mitrai | Django, PostgreSQL, Celery, Redis, Telegram, Gemini API**
   - Built a proactive AI companion that remembers conversations, follows up on user goals, and initiates context-aware conversations instead of waiting for prompts.
   - Developed persona creation, WhatsApp chat import, message encryption, long-term memory, semantic retrieval, and Celery-powered background scheduling for personalised AI interactions. ***(Pitch Deck)***
3. **GamiFied Platform (SIH 2024) | *(Demo Video)***
   - Built an AI-powered gamified learning platform that converts uploaded textbooks into personalized games, quizzes, and interactive study experiences across 6 multiplayer educational games.
   - Developed backend systems for dynamic PDF ingestion, AI-powered question generation, a voice AI companion, and personalized learning analytics using LLMs.
4. **MentorConnect | Django, PostgreSQL | *(Demo Video)***
   - Digitized the mentoring process by eliminating offline paperwork and building analytics dashboards with a RAG-powered AI assistant to provide contextual insights into student performance.
   - Currently used by the Computer Engineering Department at Fr. CRCE, serving approximately 300 students.
5. **SplitKar | Flutter, Django, PostgreSQL | *APP***
   - Developed a full-stack expense management application for group expense tracking in flutter.
   - Designed scalable REST APIs using Django Rest Framework.

ACHIEVEMENTS **8 Hackathon Wins | 21 Finalist Positions**

1. **Winners**, Saboo Siddik College, WEBATHON 2024.
2. **Second runner up**, KJ Somaiya, CODE ODYSSEY.
3. **Winners**, NIT Raipur.
4. **Winners**, 250$ bounty organsied by Tech Influencer @roshanvadassery
5. **Finalists**, **SIH 2024 .**
6. **Second Runner up**, Vasantdada Patil college, QUASAR.
7. **Winners**, Fr. CRCE, Prakalp-IKS Edition.
8. **Winners**, Sandip University Nashik, Sunhacks 2025.
9. **Winners**, SIH 2025, Ramaiah University,Bengaluru.
10. **YUKTI Innovation Challenge** 2025–26 Finalist & AICTE Productization Fellowship, MentorConnect.
